*We work together
to keep you and
your family safe.*

IF THERE IS A TORNADO COMING...

- Leave mobile homes, trailers, and vehicles.
- DON'T get under a bridge!
- If you're outside, find a building or lie down in a ditch and cover your head.
- If you can, go to a basement, a saferoom, or a small room near the center of your house.

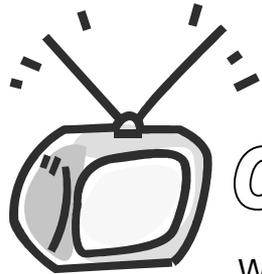

...NOT OTHERWISE

WARNING

Indoor Warning

NOAA KNOWS!

NOAA radios go off to alert you of dangerous conditions.

Cable Cut-In

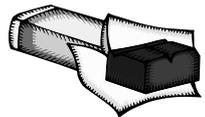

We can cut into most Cable TV channels and let you and your family know of dangerous conditions.

If a tornado is being reported, the safest place to be is in a saferoom or basement. If you don't have either, get into a closet near the center of your home and cover your head.

DISASTER KIT

Circle the things below that would go into your disaster kit

Put disaster kit items in an easy to carry container with a lid or in a waterproof backpack, so it's set and ready to go if you have to leave in a rush

Outdoor Warning

- If you hear the sirens, get inside.
- Turn on the TV or radio to find out more information.
- Take shelter if you are asked to.
- We test sirens the last Friday of every month at 11:30 AM

Did you know that Amarillo has 85 sirens located throughout the city and counties? They help warn you if you are outside playing so you can get to safety.
